

Paul Huot-Marchand

MASTER STUDENT IN ROBOTICS

LOOKING FOR AN INTERNSHIP STARTING JULY-SEPTEMBER 2026

CONTACTS

+33 7 71 74 15 86
paul.huot-marchand@epfl.ch

Rte de Chavannes 42
1007 Lausanne

SKILLS

- **Programming:** Python, C++, MATLAB
- **Robotics & Simulation:** ROS 2, Mujoco, PyBullet, Gazebo, industrial simulation tools
- **Tools & Methods:** GitHub, Linux, hardware testing & debugging, CATIA (3D modeling, assemblies, drafting)
- **Prototyping:** 3D printing, Electronics, Raspberry pi
- **Soft Skills:** Project management, teamwork, lab safety, scientific literature review

LANGUAGES

- French: Native language
- English: Fluent

EXPLORE MY PROJECTS

Education

M.A. MOBILE ROBOTICS

2025 - Present

EPFL

B.A. MICROENGINEERING

2022 - 2025

EPFL

EXCHANGE PROGRAM

(MICROENGINEERING / ROBOTICS)

2024- 2025

Chalmers University of Technology

Experience

WORK IN ROBOTICS LAB

2025

Chalmers University of Technology

- Worked daily with industrial manipulators in a research lab environment.
- Gained experience about the gap between simulation and hardware.
- Developed a systematic approach to testing and safety checks before executing robot motions.

RESEARCH ASSISTANT

2026 - Present

LASA - Crawling Hand

- Working with robotic simulation (Mujoco) for control and morphology testing
- Mechanical/Electrical design
- Developing control strategies for a crawling robotic hand
- Regular project meetings and work reviews with the research team
